Cross Country

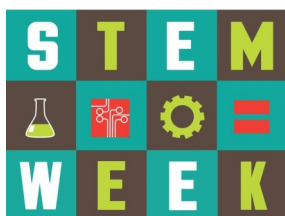

Well done to our cross country team who all performed brilliantly at the Longridge event this year. Every one of our runners gave their all and really pushed

themselves, being true challenge seekers. The team managed to make the podium in 7 out of the 8 races which was a fantastic result. Keep staying fit everyone and we can try just as hard next year.

STEM Week

Next week is our annual Science, Technology, Engineering and Maths week. Over the week we focus on the STEM subjects and seek to provide opportunities to inspire our children to be curious, inquisitive and challenge themselves to know more. This year Mrs Peck has organised an electricity sustainability workshop, river invertebrates session with the Tweed Foundation, a marble run Design and Technology Challenge, programmable robots and much, much more. Please ask your children all about the week.
